Dear Parents/Guardians,

As your child/ward will be taking GCE O-Level examinations this year, your child/ward may be participating in the 2023 Joint Admissions Exercise (JAE) to apply for admission to courses offered by junior colleges, Millennia Institute, polytechnics and Institute of Technical Education.

Students can use their Singpass to access the 2023 Joint Admissions Exercise Internet System (JAE-IS) during the JAE registration period to register their course choices and to view their posting results subsequently.

Your child/ward would have received a copy of the information note on Singpass account.

Details on registering and setting up the Singpass account or to request for a password reset via the Singpass Portal are attached for your reference.

Please help to ensure that your child/ward has registered for the Singpass account by 22 July.

Thank you.
