Emergency Preparedness

We need to **be prepared** and **ready to respond** to both:

- A situation that required immediate **evacuation**. E.g. fire, explosion, bomb threat.
- A situation that required all to **lockdown**. E.g. sudden intrusion that threaten the safety of school

Emergency Evacuation

GENERAL SEQUENCE

Activation

Prolonged ringing of the bell

Procedure:

- Do not evacuate immediately
- Stop work immediately, **listen to announcements**
- If evacuation is necessary,
 - switch off all lights, fans, air conditioners, appliances
 - line up in twos, and move towards the Assembly Area under the supervision of the teacher
 - Move calmly and quickly

Everyone need to be familiar with the school site orientation, i.e. location of blocks, staircases and evacuation routes to Assembly Area (AA).

EVACUATION (SAMPLE ANNOUNCEMENT)

Your attention please, the fire alarm has been activated. We are investigating the situation. Please remain calm and standby for further instruction.

Your attention please, we have investigated the situation and found it to be a false alarm. You can resume your normal activities.

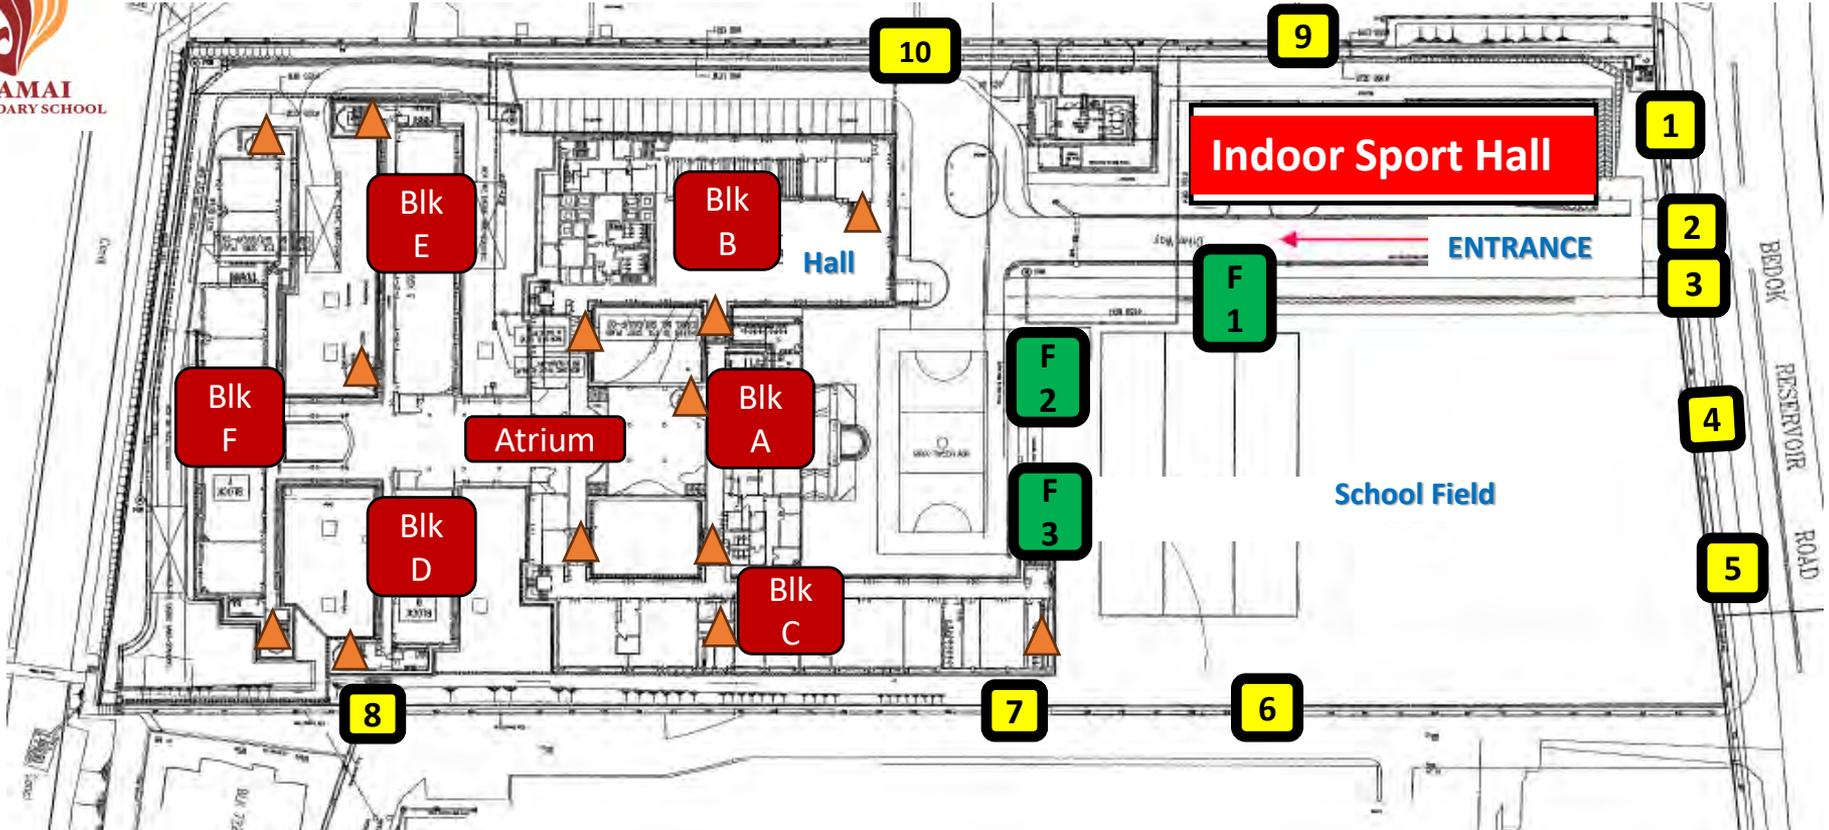

No need to evacuate

Your attention please, there is an emergency situation in the school. Please evacuate by the nearest staircase to the Assembly Area at <location>. Do not use the corridor at <location> and staircase at <location>.

Dear Parent/Guardian

ADVISORY NOTE: CYCLING TO SCHOOL

1. You are receiving this advisory note because your child/ward is cycling to school.
2. Given the potential hazards that cyclists may encounter, the school is concerned about the safety of students who cycle to school.
3. We thus seek your support to remind your child/ward to take the necessary safety precautions, including but not limited to the following:
 - a. Before cycling to school, always make sure that the bicycle is in good working condition. Bicycles should ideally be fitted with front and rear lights and a bell. Ensure that the bicycle's brakes, chains, tires, lights and bell are well-maintained and are in good working order.
 - b. Your child/ward should always wear protective gear, such as a helmet, and proper shoes (if there are shoelaces, they should be properly tied) to protect against injuries.
 - c. Your child/ward should be reminded not to use his or her mobile phone, even with an in-ear attachment, or listen to music through earphones while cycling.
 - d. Your child should use the covered pavements when cycling and avoid cycling on the road.
4. Your child/ward is advised to secure his or her bicycle at the bicycle racks located on the school premises. The school will not be responsible for the loss of, or any damage to, your child/ward's bicycle.
5. Please endorse the Acknowledgement Slip and return it to your child/ward's form teacher by 23 January 2026. Thank you.

Serving with you,
Rashmi Jayaragas

ROAD SAFETY (FOR CYCLIST)

Active Mobility Act (AMA) provides a set of rules to improve road safety (including cycling). If you fail to adhere to the rules, you may face prosecution by the Authority.

Useful reference: [LTA active mobility rules and code of conduct](#)

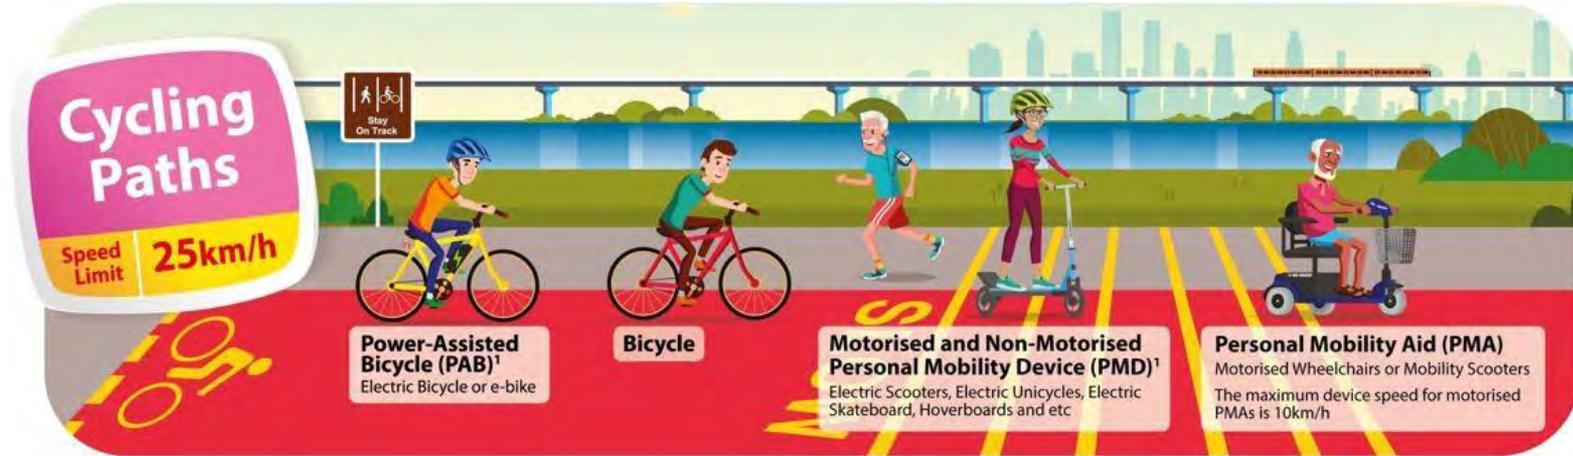

Safety Guidelines for Cyclists

- Give way to pedestrians.
- Slow down around others.
- Dismount and push your bicycle in crowded areas.
- Keep both hands on the handlebars.
- Do not use devices while cycling.
- Check that your bicycle is in good condition before setting off.

ROAD SAFETY (FOR CYCLIST)

Bicycles without handbrakes will not be allowed on public paths and roads from 1 Sep 2021

Fixed-gear bicycles, also known as fixies, generally do not have hand-operated brakes, but instead rely on the rider's pedal resistance to stop. This makes it challenging for riders to brake quickly, endangering themselves and other path and road users.

To improve safety, all bicycles must have at least one functioning handbrake to be ridden on public paths and roads.

Cyclists caught riding without handbrakes may be fined up to \$10,000 and/or jailed for up to 6 months, if convicted for the first offence. Repeat offenders may face higher penalties.

Scan the QR code or visit go.gov.sg/amrules for more information.

SCHOOL SAFETY WHILE LEARNING

- PE
- CCA
- Workshops
- Laboratories
- Kitchens
- Art rooms

In Safety, Every Damaian Matters!

SAFETY - PE & CCA

- Follow teachers' instructions at all times
- Inform teachers if you
 - are not feeling well
 - have just recovered from illness
 - are excused from certain activities
 - just received your vaccination jab
- Bring your medication to school, e.g. inhalers
- Important: while challenging ourselves to be better, always remember Safety First.

SAFETY - PE & CCA

- Stay under shelter when lightning alerts are activated

In Safety, Every Damaian Matters!

SAFETY – UNSTRUCTURED PLAY

Timing

- Unstructured play is allowed during school hours when students are not having lessons.
- Students should minimise outdoor play between hours of 11 to 3pm. During these hours, students are advised to:
 - ✓ Keep physical activity duration short with frequent rest breaks
 - ✓ Have water breaks and rest periods under shaded areas
 - ✓ Use sunscreen for UV protection

In Safety, Every Damaian Matters!

SAFETY – UNSTRUCTURED PLAY

Venues

Students should play responsibly and be aware of their surroundings when playing at the respective venues. Students are allowed to engage in unstructured play in the following venues:

School Hall

- Only badminton is allowed in the school hall
- Hall shutters should not be closed during unstructured play.

Parade Square, School Field, Basketball Court

- All sports are allowed
- Students are advised to play safely only within the demarcated court areas

Atrium, flagpole, wooden benches, other open areas

- Only badminton allowed

In Safety, Every Damaian Matters!

SAFETY – UNSTRUCTURED PLAY

Safety

- Students are to manage their own safety during unstructured play. Students should exercise self awareness and risk assessment and management for themselves and others.
- Students must report all incidents / accidents to the General Office.

Responsible use of school equipment and facilities

- Students are to use the school equipment and facilities responsibly.
- Students should exercise awareness of surroundings, and take precautions to avoid possible damage to furniture and fixtures (fans, lights, CCTV etc.) during play.
- Students should exercise mutual consideration for other schoolmates and share the common equipment and venues.
- No food & drinks in playing areas - stay hydrated with plain water.
- Strictly no littering

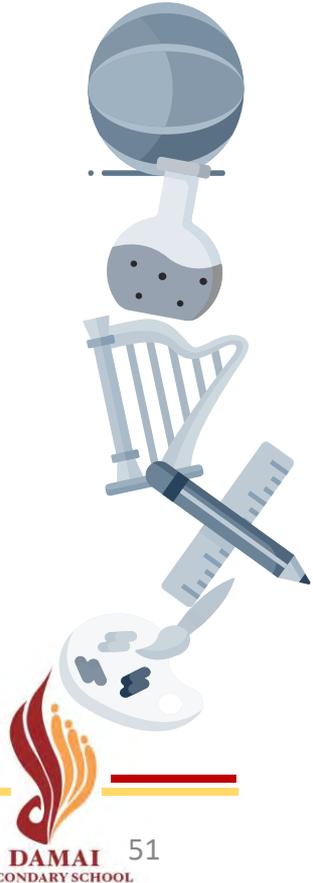

In Safety, Every Damaian Matters!

SAFETY – SPECIAL ROOMS

(Workshops, Laboratories, Kitchens, Art rooms)

Enter special rooms only when teacher is present. Follow teachers' instructions at all times, e.g.

- Do not take tools/equipment out of the rooms
- Only use tools for their intended purposes
- Female students must tie up their long hair neatly
- Keep rooms tidy, avoid tripping hazards
- Ask when in doubt

In Safety, Every Damaian Matters!

GENERAL SAFETY

- No running along corridors and canteen area
- Ball games are only allowed at authorized areas such as Hall, ISH and Parade Square

Use of Swings

- No standing behind and in front of the swings when the swings are in use.
- Do not push the users with excessive force

In Safety, Every Damaian Matters!

Safety on Swings and See-saws

Schools may have swings and see-saws in their school compound and their use is usually unsupervised. Hence, it is important to remind the students on the safe and proper use of the swings and see-saws to avoid risk of injury. In 2024 there was such an incident:

A student was playing on the swing at the school garden. Her knee hit the metal seat of the swing and she was in severe pain and unable to walk. She was brought to hospital by ambulance for treatment where it was diagnosed as a sprain.

Important points to note on the safe and proper use of Swings and See-saws:

Swings

- Proper swing usage is important. Sit on the swing; do not climb or stand on it.
- A person in motion on the swing will be unstable and is at risk of falling off. If assisting a swing user, do not push the user using excessive force after the initial starting push.
- The risk of falling increases as the swing goes higher. Hold the ropes/chain/metal bar on both sides when swinging. Do not swing with excessive force.
- Get off the swing only after it has stopped moving.

GENERAL SAFETY ADVICE

- If you are injured or felt unwell, please proceed to General Office or inform a teacher. Staff will render first-aid and follow up with your parents/guardians.
- Group Personal Accident (GPA) Insurance covers every student when he or she is in school, participating in the school's activities and etc.

In Safety, Every Damaian Matters!

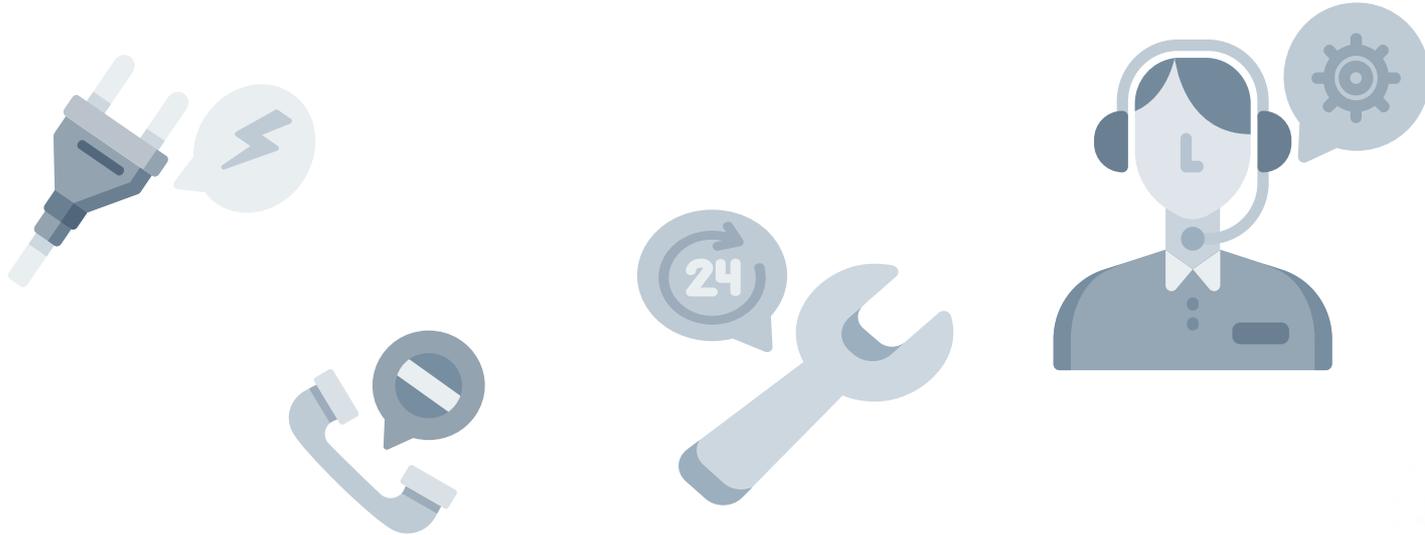

SUSPICIOUS CHARACTER/PARCELS

In Safety, Every Damaian Matters!

REPORTING OF SAFETY ISSUES
